- Turn right on N. Ventura Road.

Workshop Overview

Description

The Environmental Protection Agency revised the Worker Protection Standard (WPS) for agricultural pesticides in August 1992. The revised WPS requires that an agricultural worker (anyone who does tasks such as harvesting, weeding, or watering related to the production of agricultural plants or farms, forests, nurseries, and green houses) must receive basic pesticide safety information before they enter a treated area. Workers must receive complete WPS safety training within five (5) days of initial employment.

State Compensation Insurance Fund will host a "Train the Trainer" workshop for fieldworker trainers. This half day workshop will be conducted in Spanish for State Fund policyholders and invited guests.

Benefits To You

- Understand the requirements for pesticide safety training
- Know how to protect employees from pesticide hazards in the workplace
- Learn how to conduct the WPS Fieldworker training
- Receive your certificate of attendance which registers you as a qualified trainers of fieldworkers.

Who Should Attend

- Agricultural owners, employers, managers, supervisors, labor contractors, and anyone interested in improving their operation's pesticide safety program

Speaker

Pedro Acero is a Loss Control Consultant for State Compensation Insurance Fund with over 20 years of safety experience. Pedro is certified by the Department of Pesticide Regulation (California Environmental Protection Agency) in the "Train the Trainers (T3) Program for Pesticide Handlers and Fieldworkers." Pedro obtained his Bachelor's Degree (B.A.) at the Universidad Externado de Colombia in Bogota, Colombia, and a Master of Business Administration (MBA) from California Lutheran University in Thousand Oaks, California.
